Project Number:	18-28		
Project Name:	Perimeter Tree F	Plan and	
•	Implementation		
Project Location:	Wastewater Trea	atment Plant	
Project Manager:	Bandy		
Status:	Reviewing Heigh Trees	t of Existing Native	
Project Description:	Planning and landscaping around the treatment plant. This will include looking into possibly replacing the non-native eucalyptus trees around the perimeter of the treatment plant with native tree species. The project will start with a study and a plan to determine costs, sequencing schedule, and visual impacts. The Eucalyptus trees around the plant have ongoing maintenance costs, which may be offset in the long term with a different type of tree screening. The purpose is to improve security around plant perimeter.
